

LIQUID GASFLUX**TYPE "CS"**DESCRIPTION

A water-white volatile liquid. Principal ingredient $B(OCH_3)_3$. Will hydrolyze in the presence of moisture, yielding boric acid. Is non-corrosive and can be handled in mild steel or copper equipment.

PROPERTIES

Boiling Point	52 - 56 C
Flash Point	- 8 C
Specific Gravity (20 C)	.845
Net Weight per Gallon (20 C)	6.9 Lbs.
Distillation to Dryness	Residue nil
Borate Content	42 - 46 % (by weight)

PACKING AND SHIPPING

53 Gallon, non-returnable UN certified STC steel tighthead drums (200.6 liters)	415 Lbs.
5 Gallon, non-returnable UN certified STC steel tighthead pails (18.93 liters)	38 Lbs.

CLASSIFICATIONS

Flammable Liquid, n.o.s.
(contains trimethyl borate, acetone and methyl alcohol)
UN 1993
Packing Group II
ANSI/AWS A5.31-92 Specification: FB3-K
